Sir:

This response is in reference to the Notice to File Missing Parts, mailed May 7, 2001, issued in the above referenced patent application. As the Notice was mailed May 7, 2001, and set a two month period for response, this response is timely filed as it is being filed on or before July 7, 2001.

In the Notice, the Examiner states that the Sequence Listing previously submitted in this application fails to comply with the requirements of 37 C.F.R. §§1.821-1.825 for the reasons set forth in the attached Raw Sequence Listing Error Report.

The Error Report indicates that incorrect grammar was used in SEQ ID number 1. The Report further indicates that SEQ ID number 32 has an undefined amino acid. Applicants assert that both errors have been corrected in the amended Sequence Listing submitted herewith.
